SecurTrac

You May

Install the Software on a single computer or computer network system. The Software may be transferred to and be used on any other computer or computer network system as long as it is removed from the original system or additional licenses are purchased. If the designated use is on a network system, Extracomm Inc. does not guarantee the performance of the Software as the configuration and type of network can affect the Software performance.

Important *Note -the Software is licensed on a 'per server basis " which means that running the Software on more than one server OR using the software to monitor changes made on or originating from another (more than one) server will require you to obtain multiple licenses of the Software. For example, if the Software is installed on just a single server but is tracking and/or reporting on changes made to any Domino or other database, if the changes were made on a server other than the server running the Software, a second; third; fourth etc. (as the case may be) license is required to satisfy this EULA. Note, the aforementioned multiple license requirements applies regardless of whether the changes are monitored on a real time basis or are due to the replication feature of Domino or any other replication.*
